Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

PAPERS RECEIVED

1. The Information Disclosure Statement filed 08/01/05 is acknowledged, but has not been considered in this action.

CLAIMS

2. The claims are: 1 to 15.

Election/Restriction of Invention

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

- Group I claims 1 to 13, drawn to a glass disc, classified in class 428, subclass 846.9
- Group II, claims 14 and 15, drawn to a method of abrasive polishing, classified in class 451, subclass 41.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- The glass disc of Group I does not require a polishing agent applied in Group II nor does Group II require the concentric circles of Group I.
- The corresponding special technical feature shared by Group I and Group II, i.e., disc textures, does not define a contribution over the art as event from Horie et al (US 6491572 – cited by applicants) – cf Figs. 2 to 7.

5. Examining all inventions together would be a burden to examination as the inventions have been shown to be classified in differing areas and the search for Group I is not coextensive with Group II, and the article of Group I can be made by a materially different methods, e.g., stamping and air blasting *in lieu of* abrasive polishing and washing.

6. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

7. A telephone call was made to Eric Maschoff, on 11/17/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

CONCLUSION

9. The claims are to 1 to 15.
- Restriction has been required.
 - No claim has been examined nor allowed.
 - Information Disclosure Statement has been received.
